

HOW TO ADOPT A DOG FROM LAPS

STEP 1: VIEWING

Check out our website lapsbc.ca or visit the Patti Dale Animal Shelter to see all our adoptable dogs.

STEP 2: SPEAK TO A TRAINER

If you see a dog you are interested in, the next step is to get connected with the dog's trainer. They will ask you a series of questions to gain the necessary information to match you with the right dog depending on your household and lifestyle.

STEP 3: TRAINING SESSIONS

Every LAPS adopter must commit to 3 training sessions before taking a dog home. The purpose of the training sessions is to provide dogs and their new owners with the training and resources they need to succeed in their new environment. The time and training that a LAPS dog receives helps them become the best doggy citizens they can be.

STEP 4: TAKING YOUR NEW DOG HOME

Upon completion of your 3rd training session you will be ready to take your new dog home! Our adoption team will have you sign an adoption contract, pay the applicable fees and provide you with lots of tips to help you transition your new dog into their new environment. Now it's time to take your new family member home!
