

HOW TO ADOPT A CAT FROM LAPS

STEP 1: VIEWING

Check out our website lapsbc.ca or visit the Patti Dale Animal Shelter to see all our adoptable cats and kittens.

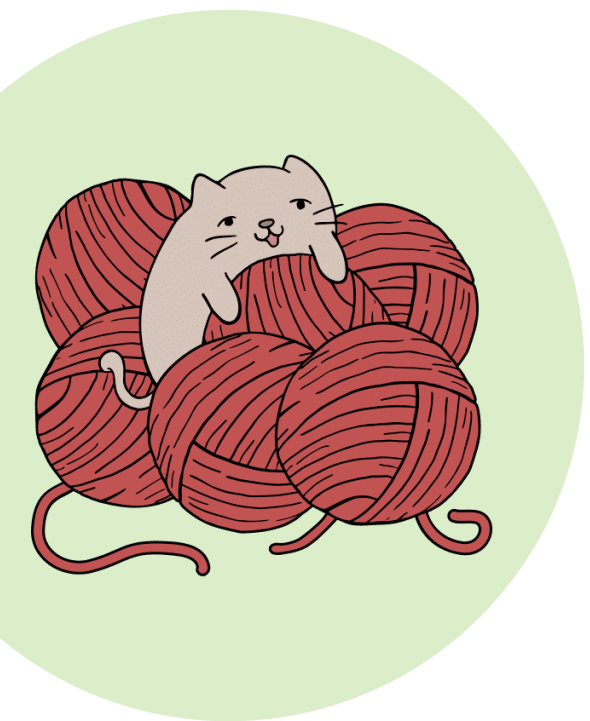

STEP 2: ADOPTION APPLICATION

If you see a cat you are interested in, the next step is to fill out the cat adoption application. This will give us the necessary information to match you with the right cat depending on your household and lifestyle.

STEP 3: APPLICATION REVIEW

Our adoption counsellors will connect with you to review your application. They will be able to answer any questions you may have about the cat or kitten and discuss any special care requirements the animal may need.

STEP 4: TAKING YOUR NEW CAT HOME

Once your application is approved there are just a few more things we need from you. These include; Signing the adoption contract; Paying the applicable fees and discussing with the adoption counsellors the best practices to smoothly transition the cat into their new environment.

After that, it's time to take your new furry family member home!
